Flexible! Powerful! Elegant!

XT-4015

High End POS Terminal

In today's retail and hospitality market, POS terminal is no longer just a cold and hard business tool. It is a part of the store decoration, a part of the store image. Each curve and detail of the POS terminal should add something to the overall mood of the store, to lift the shopping experience of the customers.

With a bezel free touch screen, beautifully sculptured slim body, sexily curved base stand, Posiflex XT-4015 looks right at home at any elegantly decorated store. And more than just good looks, XT-4015 can be equipped with the lightning fast Intel Core i7 CPU that provides ample muscle power to handle any task imaginable.

LOOKS

XT Series is the first to come from new Posiflex design language. Slimmer and sexier than ever, it is a sharp departure from the traditionally more conservative Posiflex terminal design. Every curves and details are carefully thought out to make XT Series one of the most visually desirable terminals in the market.

Flexibility

XT series comes with the selection of two foldable bases, the curvy slim GEN7E Base and the larger but practical GEN8E Base. (U.S Patent 9004436)

The new foldable base allows XT Series to be configured into different configurations. "Flat Folded Mode" to save the shipping package volume. "Low Profile Mode" to allow greater interaction between cashier and the customers; and the traditional "Full Extended Mode". All this can be achieved with a simple pull of the hidden lever. This one terminal/multi-configurations concept provides unmatched flexibility to store owners and system integrators alike.

Performance

XT Series offers a wide range of performances, with XT-4015 that stands out above everything else. In its heart beats an Intel Core i7 3.9GHz CPU (optional) that is powerful enough to process anything throw at it without even breaking a sweat.

Dual LAN

XT-4015 provides dual LAN ports that allow a dedicated LAN connection.

GEN8E Base

Optional GEN8E Base that integrates internal power adaptor and PoweredUSB port into the base stand, which allows for clutter free counter.
